

ANISHA BHEGADE

(872)664-2062 | anishabh009@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing intuitive, user-centered web and mobile applications. Skilled in UX research, interaction design, wireframing, prototyping, usability testing, and design systems. Experienced in collaborating with cross-functional teams to transform business requirements into scalable, accessible design solutions while balancing user needs, business goals, and technical feasibility. Passionate about AI-assisted product design and creating seamless digital experiences.

SKILLS

UX & Product Design: User Research, User Flows, Wireframing, Information Architecture, Interaction Design, Design Systems, Responsive Design, Prototyping, Design Thinking, Product Thinking, Accessibility, Stakeholder Management
UI & Visual Design: Typography, Color Theory, Visual Hierarchy, Component Libraries, High-Fidelity Mockups
Research & Usability: Usability Testing, A/B Testing, Journey Mapping, Affinity Mapping, Persona Development
Frontend Development: HTML5, CSS3, JavaScript (ES6+), ReactJS, Responsive Web Design
Frameworks & Styling: Tailwind CSS, Bootstrap, Cross-Browser Compatibility
AI & Emerging Tech: AI-Assisted Design, Generative AI for UX, Prompt Engineering, LLM-integrated Experiences, Conversational UI, AI Product Design Principles
Tools & Platforms: Figma, FigJam, Miro, Adobe Creative Suite, Framer
Programming & Core Skills: Python, C, C++, REST APIs

PROFESSIONAL EXPERIENCE

Product Designer | State Street| USA **Sep 2025 - Present**

- Spearheaded end-to-end product design using design thinking, from user research to high-fidelity prototypes, improving usability by 30% and reducing workflow friction across 3+ enterprise applications.
- Partnered with product managers, engineers, and cross-functional stakeholders to align business goals with user needs, accelerating delivery timelines and improving team efficiency.
- Prioritized 10+ product features using product thinking and user insights, increasing user engagement by 25% and improving task completion rates by 18% across critical workflows.
- Developed scalable design systems with reusable components, ensuring visual consistency across platforms while improving design-to-development collaboration and implementation efficiency.
- Executed usability testing, A/B experiments, and design validation sessions, leveraging user feedback to refine experiences, improving user satisfaction by 20% and reducing user errors.
- Facilitated design workshops, stakeholder reviews, and developer handoffs using Figma, maintaining design quality, ensuring implementation accuracy, and supporting Agile sprint delivery.

UX/UI Designer | Persistent Systems| India **Mar 2021 - Jul 2023**

- Designed responsive web and mobile application interfaces focused on usability, accessibility, responsive design, and consistent user experiences across multiple digital platforms, reducing user navigation time by 20%.
- Collaborated with product managers, business analysts, developers, and stakeholders to gather requirements and transform business needs into intuitive, user-centered design solutions.
- Created user personas, user journeys, information architecture, user flows, wireframes, mockups, and interactive prototypes using Figma and FigJam throughout the product design lifecycle.
- Conducted user research, usability testing, heuristic evaluations, and stakeholder feedback sessions to identify usability issues, resulting in a 25% improvement in task completion rates and overall user experience.
- Developed reusable UI components, design systems, and component libraries to maintain visual consistency, improve scalability, and streamline collaboration between design and development teams.
- Worked closely with frontend developers using HTML, CSS, and JavaScript, providing design specifications, assets, and implementation support to ensure pixel-perfect execution, reducing UI implementation revisions by 30%.
- Improved navigation, interaction patterns, user workflows, and customer journeys through iterative design enhancements, accessibility best practices, and data-informed design decisions.
- Participated in Agile sprint planning, design reviews, developer handoffs, and cross-functional workshops while presenting design solutions and incorporating feedback to deliver high-quality digital products.

EDUCATION

Masters in Human-Computer Interaction | DePaul University, USA **Nov 2025**
Bachelors of Computer Science| Sinhgad College of Science, India **Aug 2022**

KEY UX PROJECTS

USPS Mobile App Redesign **Jan 2025 - Mar 2025**

- Conducted comprehensive user research including surveys, interviews, behavioral analysis to uncover key usability issues, translating insights into clear, actionable redesign priorities aligned with user needs and business goals.
- Redesigned information architecture and navigation flows, delivering high-fidelity Figma prototypes with improved interaction patterns, resulting in enhanced usability, streamlined user journeys, and measurable improvements in task completion rates.

Craigslist Information Architecture Redesign **Apr 2024 - Jun 2024**

- Led a complete information architecture overhaul using card sorting, tree testing, and sitemap validation, significantly improving content discoverability and achieving an 80% success rate in first-click usability testing.
- Designed responsive high-fidelity wireframes and interactive prototypes focused on improving navigation clarity, ensuring WCAG 2.1 accessibility compliance, enhancing cross-device usability for a large-scale, high-traffic platform.

Style IO — AI-Powered Wardrobe Stylist App **Jan 2024 - Mar 2024**

- Designed end-to-end user experiences for mobile and desktop platforms using personas, journey mapping, iterative usability testing to refine recommendation flows and enhance personalization within an AI-driven styling application.
- Delivered high-fidelity prototypes supported by a scalable design system, including typography, color tokens, and reusable components, ensuring visual consistency and improved user engagement across multiple touchpoints.
